

# Active Learning (1)

- Modify “mouse\_timer.html” to add the text “square” to the green square and “circle” to the yellow circle when the mouse is on/off the square

# Active Learning (2)

- Remember to use Firefox to open “contextmenu\_demo.html”
- Add another option to the container's menu that allows to jump to “mouse\_timer.html” upon a click

Hint:

See the element with  
`id="pages-menu"` in `html`

## Another example: contextmenu

Contextmenu allows to add customized menu list (for example, when you click on an element).

Note: Only **Firefox** supports this feature for now. Please use Firefox to see how it works.
